[www.blakrock.live](http://www.blakrock.live)

Black Rock Is Working To Be Worldwide Number One Most Secure Trading Platform For Investors & Traders By 2020.

Our mission is to provide the best online service in the Stock market in terms of small investment requirements and value for retail clients and focus on a long-term fruitful cooperation with clients, partners and employees. Long-term straight and transparent communication is what we regard as of principal importance.

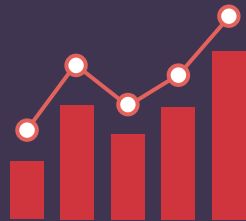

# T r a d i n g

The two prominent Indian market indexes are Sensex and Nifty. Sensex is the oldest market index for equities; it includes shares of 30 firms listed on the BSE, which represent about 47% of the index's free-float market capitalization.

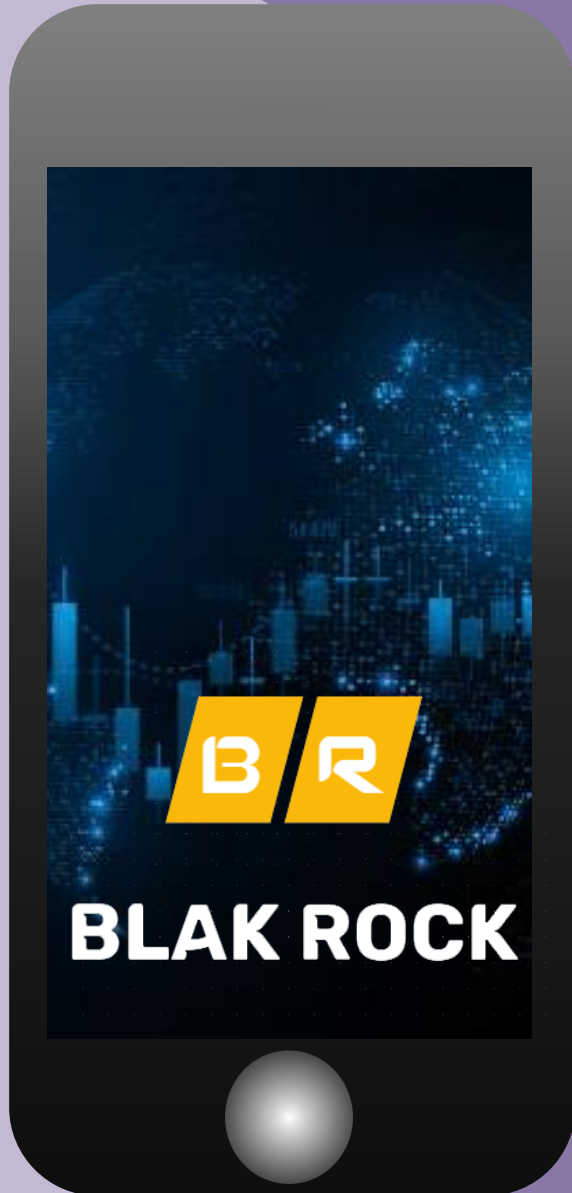

It was created in 1986 and provides time series data from April 1979, onward.

Provide you the best services and business Opportunity for  
your better future
